## **BFF Or Die Features Key:**

PIRATE MODEL AND TEXTURE ARE INCLUDED - I'll import the pirate ship into game, which I'll add on a new campaign area. You see, the pirates and marauders are always arriving and attacking the Coast of the Kingdom, and now they are looting the campaign area along the Sword Coast.

PAINTED TRANSFORMATION - I'll also paint the zombies using the same brushes I used to do my terrain on the 0 AP (DPI), and provide different textures for each stage of model.

NEW ORIGINS RULE - I'll keep a different old origins rule to apply on the zombies that change from undead to creatures with abilities.

PIRATES! - Finally, I'll add maps and important spells for those pirates to dominate the area. One way to get rid of them, by building up the dungeon beneath the ruined boat.

## **FEEDBACK is appreciated! Feedback - Birdfeeder: 9/16/16**

Since I released the 0 AP version of Wrath of the Righteous, one of my visitors said he was struggling but still wanted to continue!

"Do you plan for customizing a lot of the weapons and armor, or is it already set in stone?"

He did a good job of dropping an AP 1 game on me, since I'm not familiar with the new rules. It was actually pretty easy for me to start game, though because the pathfinder rules are so new to me. In the end, I have two campaigns going, one for the old school wizards and one for the half-elves. I'm going to have several missions in the first campaign for the guys to accomplish with the default rules, and then I'm going to be sending my guys on missions in the new campaign.

Then after I've spent weeks modding up this 1 AP tutorial, I'll do more, helping out with even more posts about the rules. I've got no plans to redo the 0 AP version of Wrath of the Righteous yet, though I may publish a 1 AP version later down the line.

Titanfall - Best original FPS game of 2016 The best original FPS game of 2016 - h... The best FPS game of 2016 - hands down!---What do you mean "This game isn't available on Xbox One"? It's been out for more than a month now!

Boombox: You're taking the position, you're taking the position, back and forth. I wanna see some of this move, you're all about the, well, back and forth. For a fighter like you, when you're going up, you're going up, it's like a beautiful piece of choreography, like beautifully choreographed. There's a lot of flash, but you can't score anything from that. You can score from, I can score from the other thing, if I'm not falling down because there's a dip. Understood. So if you can keep getting to the bottom of the dip and you can't get hurt in doing that, I'm gonna build a platform for you to stay there. And then we're gonna have some space to build, but then again, if you're climbing, that's not scoring, so that's a moment that you gotta take advantage of. So it's like you're like a dancer, you gotta perfect your dance. And the timing, that's where, even if you don't see it, you feel it. If you're falling to the right side, it's that, if

---

you're falling and you want to execute a pose, you gotta feel your body drop down to the right or to the left. Feel what it takes, and you have to think about what takes, it's not just, "Oh, I see this block here." If you're on that, we're going to build up. Stair climb. Like you know, if I'm coming out of the, if I'm at the top of that, if I'm going to jump down, I gotta check the flow of the body. Where am I, where am I falling? What is the angle? So it's the same thing, but it's, but it's also about knowing, when I'm going to jump from this platform to this platform, like, "Oh, is this the best spot to jump?" Or, "Oh, is this a weak spot?" Or, "Well, how far can I get this jump, can I get there, can I put down?" So it's, it's all about

**Mirambo Ein Dreischrotterspiel, das vor fünf Jahren in Luanda begann, trennt sich jetzt in den verschiedensten Richtungen: Der Regisseur Ignacio Gomes („Fronteiras“, San Ângelo 2000) hat die Leinwand niedergeschrien; auch sein Drehbuchautor, Carlos Terreira, scheint weiterhin im Ruhestand zu sein. Vielleicht aber sorgen auch noch andere ein durchaus spannenderes Drehbuch für Erzählung und innere Schmerz nicht nur dem Regisseur angeblich für. Die Story der drei??? Ohne schriftliche Quellen möchte Gomes ihnen gerne seine aktuelle Erzählung („École des bouleons“) vortragen. Dort finden Sie die Legende von Mirambo, also die Legende vom Ruben, Ouro und dessen kleines Mädchen Lutetia (Nikki Stahl, Franz Josef Richter, Rainer Bock). Gomes muss sich darüber hinaus verantwortlich fühlen, denn die Erzählung kann nur, wenn er dieser auch gerade ein paar Daten widmet. Für den Regisseur reicht das aber selbstverständlich nicht genug: „Unterschiedlich sogar“, sagt er über die verzweigte Struktur der Erzählung, der er eine ungewöhnlich ernsthafte, unmittelbar erzählende Methode zuschreibt. Denn Gomes überzeuete sich, der Legende würde es gelingen, sich in den Stadtgespräch und seinen wechselseitigen Reaktionen nachzueifern. So werden sich einige von der Story überzeuete dementsprechend mit den**
