You can also import other file types and see them in AutoCAD, such as: Spreadsheets Images PDFs Text files You can also change the fonts of your drawings in AutoCAD. You can use any font you like as long as it's in the font list. There are over 80 fonts available in AutoCAD. You can also use templates. Templates have a template name and a description. Templates come with predefined settings. One of the best features in AutoCAD is its ability to import 3D models. You can import 3D models from other applications like Sketch
