When I was a child I remember watching a cartoon that had a character yelling and then a countdown before a brick/rock would be removed and something big would fall to the ground. I would watch that cartoon over and over and be amazed at how smooth it was and how seamless it all looked. Well, I wanted a raffle game like that. Now that I have created and released it, anyone can use it and create their own game. What Is Raffle

Blast? Raffle Blast allows you to create your own fun, stand up raffles with custom background, sounds and textures. Does It Do Anything Else? It can be used for anything that requires a raffle or drawing. It can even be used to simply draw a person's name in and get their phone number in game. That's more fun. The possibilities are endless. How Do I Use It? All you have to do is add some text and a simple game to it. You can create your own theme or simply use a pre-existing one. Download Raffle Blast from

www.cloud4games.com to get started. For more information on how to use Raffle Blast, view the User's Guide and Technical Information found on the download page. Buy this game for \$19.99 and you have access to an Android App which does the same thing as the official Mac or Windows Version, that's right.. The Raffle Blast for Android App is included and comes with a pre-made theme with selected sounds and buttons and graphics. When you purchase this version you also get 30 days of free updates to the

app and the game's built in level editor.
How Do I Download Raffle Blast?
