Roblox is an online game platform and game creation system developed by Roblox Corporation that allows users to program games and play games created by other users. Created by David Baszucki and Erik Cassel in 2004 and released in 2006, the platform hosts user-created games of multiple genres coded in the programming language Lua. For most of Roblox's history, it was relatively small, both as a platform and a company. Roblox began to grow rapidly in the second half of the 2010s, and this growth has been accelerated by the COVID-19 pandemic. Roblox is free to play, with in-game purchases available through a virtual currency called Robux. As of August 2020, Roblox had more than 164 million monthly active users, including more than half of all American children under 16. Although Roblox has received generally positive reviews from critics, it has faced criticism for its moderation, microtransactions, and exploitative practices directed toward children. We found a method of generating free robux but it seems to be broken. Any developers out there that might know a fixed one? The method of randomly generating robux is: **Go to Roblox in full screen mode. Take a screenshot. Go to the picture, right click, and select "copy image as picture". Go to Roblox, and paste the image. Go to your trade box, and press the reset button. Now go to your trade box, and your robux balance should now be completely replenished. Yes. I've used this method successfully, but it is not guaranteed to work. I've made a code to search for Roblox clients and connect with their game and give away robux. I've only tested it a few times, and it hasn't crashed for me. But I've also never been able to get robux using this method. Using this method, you can make a list of all the games you own and connect to their game. In some games, the robux kept an account even without username, or you can rename the user name and still keep the robux. Watch out for the games with a restart button, or a "resume game" button. The game is logging the user ID and sometimes checks if you are the same user. If you're really starting the game from the start, you can buy or earn new robux, and the previous robux is automatically regenerated. Also, if you login to a game from another game, the previous robux will be in the other game. Always remember that when you download a game, you should not paste the image into Roblox, but rather, you should right click and copy the image. If you are in a game, and want robux, you can use this trick. Make sure you are not playing, then click "log out". If you are already playing, restart your game (Hold down CTRL+F9) and your robux will be back. To download a game, go to the icon of the game you want to play and press CTRL+F9 to restart the game. To get robux, you should first get a new account, and then your current account. The process of upgrading is as follows: Go to your game profile and change your name (**
